

Experiences & Outcomes:

TCH 0-13a

MTH 0-13a

MNU 0-20a

LIT 0-09b

Developing the Young Workforce:

CES: *I can role play different jobs.*

Data Scientist: Data scientists combine their IT, statistical and mathematical knowledge to help businesses make accurate decisions. They collect, extract and analyse large amounts of structured and unstructured raw data from a variety of sources to make predictions and identify trends based on their findings.

Pattern Cutter: Pattern cutters work from fashion designers' plans to make the templates used for making garments. Pattern graders take the patterns made by pattern cutters and produce scaled up and scaled down versions, to produce the same garment in different sizes.

Resources:

Coloured pencils

Jumper template

Glue

Magnetic numbers

Sandwich making pictures

Whiteboard & pen

Activity:

Brenda's Jumper

Using different colours and shapes design a repeating pattern to create a jumper for Brenda to wear to the party.

Counting Sheep

Use the magnetic numbers to create a number line to count the number of sheep on selected pages. Display this information in a pictogram either by drawing the sheep or using the pictures provided.

Grass Sandwich

Cut and stick the different stages, of making a grass sandwich, in the correct order.

Experiences & Outcomes:

TCH 0-04a

TCH 0-10a

MNU 0-20a

Developing the Young Workforce:

CES: *I can communicate with people about different jobs they do in the community.*

Countryside Ranger: Countryside rangers or wardens look after wildlife and prevent damage to the countryside in areas open to the public. They give information to visitors and lead guided walks. They are also called recreation rangers.

Conservationist: Nature conservationists are responsible for the practical management of the countryside. They develop policies to preserve and protect areas such as woodlands, fields, rivers, mountains, forests or coastal areas, to develop awareness and understanding and to encourage visitors.

Resources:

Bird feed

[RSPB Bird feeder instructions](#)

Coloured pencils

Magnetic numbers

Mixed materials

Plastic bottle

Scissors

String

Whiteboard & pen

Yoghurt pot

Activity:

Bird Feeder

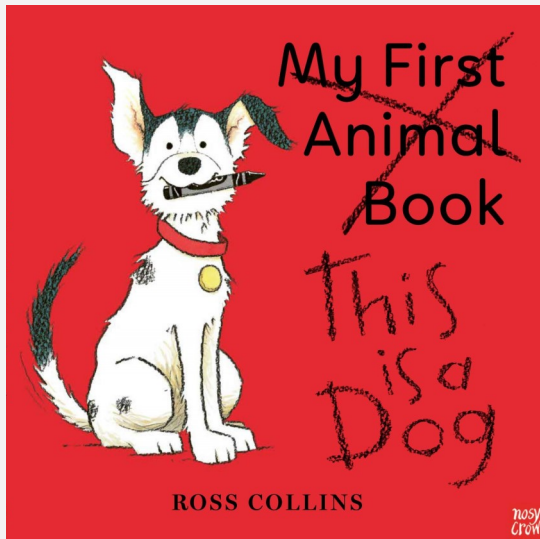

Follow the instructions to make a bird feeder. Hang it outside and see what wildlife is attracted to it.

Bird Watch

Use the whiteboard and pen to record what birds and how many can be seen in the playground. How can this information be displayed?

Protect the Egg

Choose materials to create a safe wrap/cover to protect an egg in case it falls out of a nest. Test out different solutions to see which material is best.

Experiences & Outcomes:

SCN 0-11a

SCN 0-20a

HWB 0-50a

Developing the Young Workforce:

CES: *I believe I can do any job.*

Veterinary Nurse: Veterinary nurses (vet nurses) help veterinary surgeons (vets) treat and care for sick and injured animals. Although most vet nurses work mainly with small animals, in some cases they care for farm animals, horses or zoo animals.

Dog Handler: Dog handlers work with specially trained dogs to help prevent and detect criminal activity and search for missing persons. They are responsible for looking after, feeding and keeping the dogs under control. Dog handlers mainly work for the police, the Armed Forces, customs and excise or private security firms.

Resources:

Coloured pencils

Magnetic numbers

Whiteboard & pen

This is a...[sound clip](#)

Activity:

Odd One Out

Choose 3 animals from the book. Discuss which animal is the odd one out and justify your answers.

This is a...

Play the sound clip and draw/write on the whiteboard what animal is making a noise in the clip.

How to Look After a Dog

Create instructions on how to care for a dog and use digital media to share it.

Story

Brenda is a Sheep

Design a new jumper with a repeating pattern for Brenda to wear to the party. How many different shapes and colours can you include?
