

## Experiences and Outcomes:

SCN 1-02a

SCN 1-01a

TCH 1-02a

MNU 1-11a

## DYW link:

**Fishery Biologist:** catching, measuring, examining and releasing fish and assessing their health. making improvements to fish habitats through work on streams and river banks. handling general enquiries from the public. granting licences to move fish.

**Commercial Diver:** inspect, repair, install, and remove structures, equipment, and items that are underwater in lakes, rivers, oceans, and other bodies of water, and might take photographs or video of

## Resources required:

Shoe box

Rulers

Craft resources or plastic animals

Character cards for sorting

## Activity/Challenge:

- Create a diorama model out of a shoebox to show what sea creatures live at each level of the sea and label with the correct depth. Use the characters in the story as examples E.g. sea bed, deep sea etc.
- Sort the sea creatures into different categories e.g. can live on land, has limbs or fins, eats other fish etc. Be as creative as you can.
